Attorney's Docket No.: 11544-003001 / 0641-5101US

7. (Amended) The pharmaceutical composition according to claim 1, wherein said American ginseng extract is extracted with water or 10% ~ 80% ethanol aqueous solution, centrifuged, and filtered through an ultrafiltration membrane with molecular weight cut off 1,000 to give a retentate and a filtrate containing substances with molecular weight less than 1,000 dalton, the filtrate being concentrated to dry, added ethanol solution to dissolve said substances, filtered said ethanol solution to obtain a soluble portion, added said soluble portion into said retentate to obtain a mixture, and concentrated said mixture to give the American ginseng extract.

BL

8. (Amended) The pharmaceutical composition according to claim 1, wherein said solvent is water or $10\% \sim 80\%$ ethanol aqueous solution, and said ultrafiltration membrane with molecular weight cut off at least 1,000 is a membrane with molecular weight cut off 3,000 to give a retentate containing substances with molecular weight greater than 3,000 dalton, and the retentate being concentrated to give the American ginseng extract.
